

# BELAYNEH KASSIE

## FULL-STACK WEB DEVELOPER

### CONTACT

#### Phone

+251 985 979 631

#### Email

[belaynehkassie01@gmail.com](mailto:belaynehkassie01@gmail.com)

#### Location

Addis Ababa, Ethiopia

#### Portfolio

[binik.vercel.app](https://binik.vercel.app)

#### GitHub

[github.com/belaynehkassie01](https://github.com/belaynehkassie01)

#### LinkedIn

[linkedin.com/in/belayneh-kassie](https://linkedin.com/in/belayneh-kassie)

### TECHNICAL SKILLS

#### Frontend

React, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design, DOM Manipulation, React Router

#### Backend

Node.js, Express.js, RESTful API Development, Middleware, JWT Authentication, API Documentation

#### Database

MySQL, SQL, Firebase (Authentication, Firestore), CRUD Operations, Database Design

#### Tools

Git, GitHub, Postman, VS Code, npm, Chrome DevTools, JSON, Markdown

### CERTIFICATIONS

- **Full-Stack Developer**  
Evangadi Tech
- **Frontend & Android Development Fundamentals**  
EthioCoders

### LANGUAGES

- English
- Amharic

### TECHNICAL ACHIEVEMENTS

- Successfully built and deployed 4 full-stack web applications within 12 months

### PROFESSIONAL PROFILE

I am a passionate Full-Stack Developer with hands-on experience using modern full-stack technologies (MySQL, Express.js, React, and Node.js). I enjoy building scalable and responsive web applications that combine clean, intuitive user interfaces with efficient, robust backend systems. Alongside my university studies, I actively design, build, and deploy real-world projects to continuously strengthen my practical expertise. I am a motivated, fast learner with strong analytical skills, committed to writing clean, maintainable code in collaborative, dynamic development teams.

### PROJECTS

#### Student Management System | Full-Stack Web Application

*Technologies: React, Node.js, Express.js, MySQL, Bootstrap, JWT Authentication*

- Developed a comprehensive student management platform for managing students, teachers, departments, courses, and academic records.
- Designed and implemented a relational MySQL database with proper table relationships and foreign key constraints.
- Built secure authentication and authorization using JWT-based login and role-based access control.
- Created RESTful APIs for student, teacher, course, and user account management.
- Developed responsive admin dashboards and management interfaces using React and Bootstrap.
- Implemented CRUD operations, data validation, and error handling to ensure data integrity and system reliability.

**GitHub:** [github.com/belaynehkassie01/student-management-system](https://github.com/belaynehkassie01/student-management-system)

**Live Demo:** [sms-rho-three.vercel.app](https://sms-rho-three.vercel.app)

#### Garage Management System | Full-Stack Application

*Technologies: React, Node.js, Express.js, MySQL, Bootstrap, REST APIs*

- Engineered a complete garage management solution for tracking services, customers, and maintenance records.
- Developed a RESTful API with Express.js handling customer management, service booking, and inventory tracking.
- Built a responsive admin dashboard with React components for real-time data visualization.
- Implemented a JWT-based authentication system for secure user access control.
- Designed intuitive UI with Bootstrap ensuring optimal user experience across devices.

**GitHub:** [github.com/belaynehkassie01/abegaragemainapp](https://github.com/belaynehkassie01/abegaragemainapp)

**Live Demo:** [addisgaragemainapp-mu.vercel.app](https://addisgaragemainapp-mu.vercel.app)

- Mastered full-stack development through practical project implementation
- Consistently apply best practices in code organization and version control
- Active contributor to personal GitHub with regular updates

### ADDITIONAL INFO

- **Availability:** Immediate
- **Work Preference:** Onsite (Addis Ababa) or Remote
- **Work Authorization:** Ethiopian citizen with full work rights
- References available upon request

### Amazon Clone | E-Commerce Full-Stack Application

*Technologies: React, Node.js, Express, Firebase, Bootstrap*

- Developed a feature-rich e-commerce platform with complete shopping cart functionality.
- Implemented Firebase authentication for secure user registration and login system.
- Created REST API endpoints for product management, cart operations, and user data.
- Designed a responsive product catalog with filtering and search capabilities.
- Integrated a simulated payment processing and order tracking system.

**GitHub:** [github.com/belaynehkassie01/amazon-frontend](https://github.com/belaynehkassie01/amazon-frontend)

**Live Demo:** [amazon-clone-steel-alpha.vercel.app](https://amazon-clone-steel-alpha.vercel.app)

### Event Ticketing System | Backend API Development

*Technologies: Node.js, Express, MySQL, JWT*

- Architected a RESTful API for a comprehensive ticket booking and management system.
- Implemented secure authentication using JWT tokens with password hashing.
- Designed efficient MySQL schemas with complex relationships for users, events, and tickets.
- Developed robust error handling, input validation, and logging mechanisms.
- Created comprehensive API documentation for easy integration.

**GitHub:** [github.com/belaynehkassie01/ticketing-management](https://github.com/belaynehkassie01/ticketing-management)

**Live Demo:** [ticketing-management.vercel.app](https://ticketing-management.vercel.app)

### EDUCATION

#### Bachelor of Science in Computer Science

**University of Gondar** | *Expected Graduation: 2028*

- **Relevant Coursework:** Web Technologies, Database Systems, Software Engineering, Data Structures, Algorithms
- **Academic Projects:** Developed multiple full-stack web applications demonstrating practical implementation
- Currently maintaining a 3.0+ GPA while actively building personal projects

#### Diploma in Database and Web Development

**Blue Nile College** | *Completed: 2024*

- **Focus Areas:** Database Design & Management, Web Programming, System Analysis, PHP/MySQL Development
- **Key Skills Acquired:** Frontend development, Backend programming, Database administration
- **Capstone Project:** Inventory Management System with comprehensive reporting features
